

Gabii (Gabi)

This piece was originally meant as an introduction for another song, but quickly became a song all its own. Its title is the Visayan word for "night," in tribute to nighttime in places far from the world-weariness of the city, where moments of Divine communion take place inexplicably yet unmistakably. In these places, nighttime is a sacred, marvelous time, where stars still bring wonder, the wind whispers words of solace, and the stillness allows the most intimate conversations with God.
